

## Heritage Court Office Building Olympia, WA

The Heritage Court Office Building is a 24,000 SF four-story design-build project is scheduled to be complete in April 2009. The photo on the front displays the WPC carpenters placing a portion of the structural concrete shear walls of this uniquely V-shaped building in September 2008. This project is certainly a stand-out building off highway 101, with aluminum panel siding, brick veneer, and translucent panel roofing.

The Design Build team consists of **WPC, MSGS Architects, Patrick Harron, PCS Structural, Betschart Electric, General Mechanical, Capital Sheet Metal, and Smith Fire Systems.**
